Inspired by Andy, a cheeky and up-and-coming Hip-Hop artist from Miami, \$ANDY Coin brings the fun, energy, and creativity of the music scene directly into the world of cryptocurrency.

With Andy's growing success across platforms like TikTok, X (formerly Twitter), YouTube, and Instagram, \$ANDY Coin is set to go viral alongside him. This project is not about complex technology; it's about a vibrant community that unites music, memes, and blockchain. Together, we aim to create one of the biggest and most fun movements in the crypto space – and you can be part of it from the very beginning!

## TOKENOMICS

To ensure the project's long-term success and that the community remains at the core of the initiative, we've strategically planned the distribution of \$ANDY Coin:

**TOTAL SUPPLY: 555,555,555 \$ANDY COINS**

**Max Coin Supply:** The total supply of \$ANDY Coins is capped at 555,555,555. No additional coins will be created, ensuring scarcity and protecting the value and exclusivity of the token.

**20% – Liquidity Pool (Raydium):** These coins will be allocated to the liquidity pool to ensure the token's smooth trading and stability on Raydium.

**5% – Team:** This portion will be allocated to the project's team and advisors to reward their continued work and commitment to the project.

**55% – Presale:** The largest portion of coins will be sold during the presale, ensuring that everyone has the chance to be part of the project from the beginning.

**20% – Treasury:** The reserve fund will be used for the ongoing development of the project, marketing efforts, and potential future partnerships.

With this fair and transparent distribution plan, we aim to strengthen the community right from the start and establish a solid foundation for \$ANDY Coin's growth.
